

Food and Growing Group report - Admin Meeting June 2019

Apple Press - Duncan and Anna are dealing with the bookings again this year. Hoping to put in place a booking system that takes the pressure off them a little. F&G meeting in August where we'll be updated on it.

It has been booked for the BBlack Isle Gathering.

Pasteuriser - Martin has put notice about in recent newsletter - what it's useful for, how to book it.

Grow North - working well, good attendance, new links made this year with Beauty Community Garden.

Sue Mullins, one of the most experienced and popular tutors, has proposed to run a mini series of practical garden sessions in her established garden - the 'when' of that to be sorted out.

Grow North 2019 Date and session	Numbers attending	Donations	Costs	+/- in total
30/3. Organic tattie growing	8	£20	£50	-£30
13/4 Wormeries	6	£39	£50	-£11
18/5 Propagation	12	£50	£75	-£25
Totals thus far	26	£109	£175	-£66

Grow North book - 11 copies still available to sell. Marcia would like to see it updated but hasn't time to work on it until autumn/ winter (and would like to do it with another person - we will discuss/ decide at next F&G meeting). I still have to research costs but with 11 copies 'in the bank' don't feel there's a great urgency (as the whole thing also available on the website.)
